

Innovative Parts Cart B™

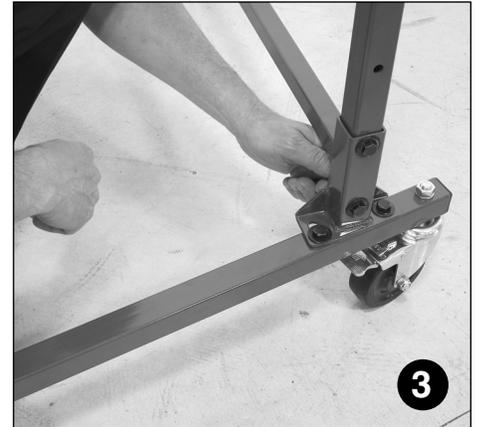

Assembly Instructions

1
Install wheels to leg support tubes. Do not overtighten.

2
Bolt leg support tubes to lower frame support. If you want to nest the SuperStorage Parts Cart, move leg support to outward position.

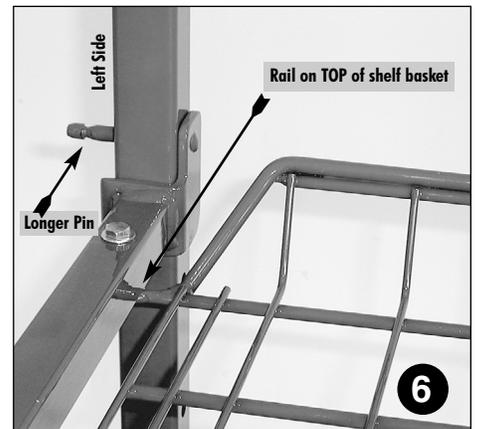

3
Slide longer side rail tube into lower base support. Insert bolts. *Note: do not tighten bolts until frame is completed.*

4
Install center frame and last two short side rail tubes.

5
Install upper frame support, then tighten all bolts.

6
Shelf assembly
Put longer pin on the left side of all three shelves. *For easiest assembly, set shelf on table when installing support arms.*

7
Put shelves in desired positions. Always put heavier objects on lower shelves.

8
Nesting instructions
Fold shelving from bottom to top.

9
For restoring shelves to operating position, fold out from top to bottom.
