FEATURES

- Doesn't Require adapters
- Heavy Duty Acme Thread
- Versatile Mounting Options
- Multi-Position Hooks
- All Steel Construction
- Easy to Use

THE MOST TRUSTED SPRING COMPRESSOR!

Since the mid-80s we have been the tool of choice. The OEM approved Model 7600 handles even tough applications like the Jeep Cherokee Trailhawk, RAV4, F-150 and GM pickups/SUVs... without the need for adapters. The multi-position upper spring hooks are adjustable up to 4 inches, in 1 inch increments, giving the Model 7600 the flexibility to fit difficult coil spring configurations while its long handles provide extra torque to make compression easier. With a structural ring guard, better top nut clearance and a longer compression stroke, this is the best spring compressor on the market. Whether long, short, narrow, or angled, the 7600 will get it done. Made in the U.S.A. at Branick's manufacturing facility in Fargo, ND.
