

Challenger Lifts

CL12

CL12:

3-stage front + 3-stage rear arms

Service more vehicles and make more money with Challenger Lifts' new CL12, 12,000 lb. capacity two post lift. The new CL12 comes standard with 3-stage front and 3-stage rear arms providing the advantage of lifting many common cars, trucks, vans and SUVs within rated capacity.

The CL12 has features you would expect to pay more for like geared arm restraints, 3-stage front and rear arms, and necessary adapters for lifting trucks. In fact, no other car lift company gives you more.

Features & Benefits:

- 3-stage front and 3-stage rear arms provide greater extension and retraction.
- Geared arm restraints standard.
- Single-point mechanical lock release system allows technician to disengage both column locks simultaneously.
- Oversized steel pulley reduces stress on equalization system and provides increased durability.
- 60" lifting carriage lessens column stress by dispersing load.
- Standard combination stack screw pads and storage brackets accommodates a wide range of vehicle pick up points.
- Padded overhead shut off system prevents vehicle damage from being raised too high.
- 1' and 2' column height extensions available

Heavy duty telescoping screw pads will provide accurate adjustment to ensure correct contact with manufacturer specified vehicle pick up points.

Model Number	CL12	CL12-1	CL12-2
Lifting Capacity	12,000 lb. (5443kg)		
A Rise Height ¹	84 ³ / ₄ " (2153mm)		
B Height Overall	13' 8" (4166mm)	14' 8" (4470mm)	15' 8" (4775mm)
